On day 5 of our hackathon project, I made sure that the functions of my website are working.

STEP : 01 :

My all latest products (fetched from API and sanity) are showing properly.

Our Latest Products

Timber Craft $320	**Bright Space** $180	**The Dandy chair** $150	**Vase Set** $150
Syltherine $200	**Sleek Living** $300	**Amber Haven** $150	**Cloud Haven Chair** $230

My cart funtion is working properly.

My checkout page is working properly.

I have all my products listed.
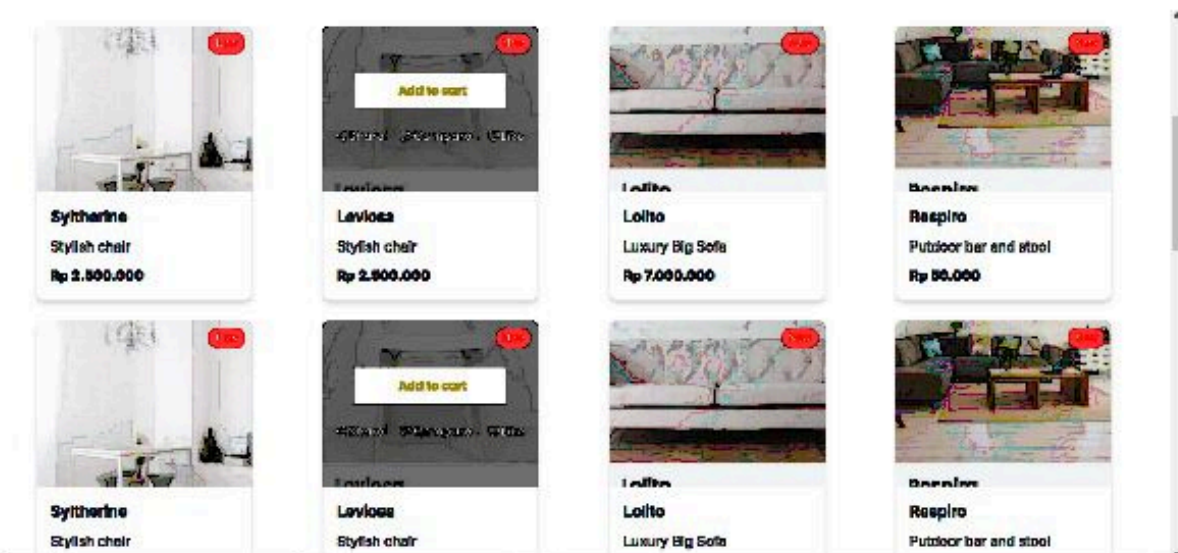

My website is responsive but in some dimensions, trouble is coming.
